STUDENT SPOTLIGHT

Kimberley Evans-Smy

Attended: Glossopdale Community College
Study Programme: Level 3 (Year 2) in Animal
Studies

Progression: Wildlife Conservation in South
Africa

Kim applied for this course as her dream is to work with animals and she knew that our course would be a good starting point to begin that journey.

Kim was offered the opportunity of a lifetime to attend a trip to South Africa with one of her classmates! Kim said, "I was excited when the opportunity was offered as it's not something that you hear about or do everyday, so it would have been a good experience."

The trip will primarily focus on wildlife conservation to which they will learn about the different methods they would use. Kim would also treat sick and injured animals.

Due to the current situation, Kim is hoping to fly out next year!
